Challenges: We continue to assess the mental health needs of our clients. Within the Somali culture it is unacceptable to request help for emotional/mental health issues, by building relationships we are able to break down some of those barriers. We have had several women sent to us from St. Vincent DePaul Charity Center as they are seeking help for food and clothing for self.

Comments: We have several clients that walk to their appointment at the center; we have seen an increase in our no call/no show with the colder weather.
